DIRECTOR REPORT

The directors' of your Company are hereby present the annual report of the Company alongwith the audited financial statements for the year ended June 30,2012.

In compliance with the Code of Corporate Governance, these financial statements have been endorsed by the Chief Executive Officer and Chief Financial Officer of the Company, recommended for approval by the Audit Committee of the Board and approved by the Board of Directors for presentation.

The demand for textile products in the country remain subdued during the year under review which was mainly due to Euro zone debt crisis and deceleration of economic activity in the regional markets. The activity in domestic textile industry slowed down further due to lesser availability of power and gas through out major part of year. On the other hand domestic cotton output was high during the year. This abundant supply led to fall in cotton prices resulting in inventory losses particularly in early part of the financial year. In addition the price of gas besides its shortage was also revised twice during the year under review. Furthermore, Gas Infrastructure Development Surcharge was levied with effect from January 01, 2012 @ 13/MMBTU on captive power adversely affecting the gross margin.

The Key Financial results are as under:

| | 2012 | 2011 |
|-----------------------------|-----------|-----------|
| | Rupee | s (000) |
| Sales | 4,847,590 | 5,767,986 |
| Gross profit | 291,604 | 727,647 |
| Operating profit | 12,672 | 471,499 |
| Financial charges | (125,690) | (161,934) |
| Profit/ (loss) before tax | (113,018) | 309.564 |
| (Loss)/ profit after tax | (161,443) | 209,445 |
| Earning per share (EPS) Rs. | (4.95) | 6.46 |

2012

2011

Your Company has posted a after tax loss of Rs. 161.443 million as compared to profit of Rs. 209.445 million last year.

During the year under review, sales declined from Rs. 5,767.986 million to Rs. 4,847.590 million. This was mainly due to lower price of cotton and its products compared to the last year. Gross profit as percentage to sales was also lower. The Gross Profit ratio during the period was 6 % compared to 12.62% in corresponding period of last year. The Gross Profit as well as overall profitability was higher last year as cotton was procured at cheaper rates and subsequently prices increased. However in the current year prices have remained relatively stable. Financial cost as a percentage to sales has decreased to 2.59% for the period as compared to 2.81% in corresponding period of last year.

Future prospects

The prices of textile products in general are expected to remain stable due to better market expectations. On the cost side, the cost and availability of energy remains the biggest challenge for the company. The company is trying its best to meet these challenges through improvement in product development, marketing efforts and working on energy efficiency measures.

The Directors of your Company are striving and working hard to bring the Company back to profitability very

soon and hope to stage a sustainable financial turnaround for the ensuing financial years. We remain highly optimistic of growing export market share and penetration in new and profitable markets in-spite of prevailing energy scenario in the Country.

Related parties

The transactions between the related parties were carried out at arm's length prices determined in accordance with the comparable uncontrolled prices method. The Company has fully complied with the best practices on transfer pricing as contained in the listing regulations of the stock exchanges in Pakistan.

Safety, Health and Environment (SHE)

Your Company takes all possible measures to ensure that all our employees as well as communities within which we operate remain safe at all time. Environmental protection is a top priority on company's SHE agenda. The company ensures that its production processes are eco friendly and efficient. We constantly try and improve energy efficiencies both at production facilities and in our offices.

Your Company has also obtained BCI Certification (Better Cotton Initiative) besides holding OEKO-TEX Certificate (Eco-Friendly Cotton).

Compliance with Code of Corporate governance

Your Company complies with the requirements of best practices of Code of Corporate Governance. In order to protect and enhance the long term value of shareholders the Board is responsible for the overall corporate governance of the Company including approving strategic policies and decisions, capital expenditures, appointing, removing and creating succession policies. In compliance with the Code of Corporate Governance following statements are given for corporate reporting frame work:

- I. Financial statements prepared by the management represent fairly and accurately Company's state of affairs, results of its operations, cash flows, and changes in equity,
- 2. Proper books of accounts have been maintained,
- 3. Appropriate accounting policies have been consistently applied in the preparation of financial statements and accounting estimates are based on reasonable and prudent judgment.
- 4. International Financial Reporting Standards as applicable in Pakistan have been followed in the preparation of financial statements.

Combined pattern of CDC and physical shareholdings

Combined pattern of CDC and physical shareholding is annexed to the directors' report.

Acknowledgement

The Directors of your Company would like to place on record their deep appreciation for support of customers, bankers, regulators and shareholders for their support and hope that this cooperation and supports will also continue in future.

The Directors of your Company would also like to express their appreciation for the services, loyalty and efforts being continuously rendered by the executives, staff members and workers of the Company and hope that they will continue to do so in future as well.

For and on behalf of the Board

AUDITORS' REVIEW REPORT TO THE MEMBERS On Statement of Compliance with Best Practices of the Code of Corporate Governance

We have reviewed the Statement of Compliance with the best practices (the Statement) contained in the Code of Corporate Governance (the Code) as applicable to company for the year ended June 30, 2012 prepared by the Board of Directors of GHAZI FABRICS INTERNATIONAL LIMITED (the Company) to comply with the Listing Regulations No. 35 of the Karachi Stock Exchange (Guarantee) Limited and Lahore Stock Exchange (Guarantee) Limited where the Company is listed.

The responsibility for the compliance with the Code of Corporate Governance is that of the Board of Directors of the company. Our responsibility is to review, to the extent where such compliance can be objectively verified, whether the statement of compliance reflects the status of the Company's compliance with the provisions of the Code of Corporate Governance and report if it does not. A review is limited primarily to inquiries of the Company's personnel and review of various documents prepared by the Company to comply with the Code.

As part of our audit of financial statements we are required to obtain an understanding of the accounting and internal control system sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board's statement on internal control covers all risks and controls, or to form an opinion on the effectiveness of such internal controls, the Company's corporate governance procedures and risks.

Further, Listing Regulations of the Karachi Stock Exchange (Guarantee) Limited and Lahore Stock Exchange (Guarantee) Limited requires the company to place before the Board of Directors for their consideration and approval of related party transactions, distinguishing between transactions carried out on terms equivalent to those that prevail in arm's length transactions and transactions which are not executed at arm's length price, recording proper justification for using such alternate pricing mechanism. Further all such transactions are also required to be separately placed before the Audit Committee. We are only required and have ensured compliance of requirement to the extent of approval of related party transactions by the Board of Directors and placement of such transactions before the audit committee.

We have not carried out any procedures to determine whether the related party transactions were undertaken at arm's length price or not.

Based on our review, nothing has come to our attention, which causes us to believe that the Statement of Compliance does not appropriately reflect the Company's compliance, in all material respect, with the best practices contained in the Code of Corporate Governance as applicable to the company for the year ended June 30, 2012.

CHIEF EXECUTIVE

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2012

1 REPORTING ENTITY

Ghazi Fabrics International Limited ("the Company") was incorporated in Pakistan on April 30, 1989 as a Private Limited Company and converted into Public Limited Company on January 07, 1990. Its shares are quoted on Karachi and Lahore Stock Exchanges. The main activities of the Company are textile manufacturing, production of cotton and P.C. yarn and grey cloth that are marketed both within and outside Pakistan. The registered office of the Company is situated at 8-C, E-III, Gulberg III, Lahore.

2 BASIS OF PREPARATION

2.1 Statement of compliance

These financial statements have been prepared in accordance with approved accounting standards as applicable in Pakistan and the requirements of the Companies Ordinance, 1984. Approved accounting standards comprise of such International Accounting Standards as notified under the provisions of the Companies Ordinance, 1984. Wherever the requirements of the Companies Ordinance, 1984 or directives issued by the Securities and Exchange Commission of Pakistan differ with the requirements of these standards, the requirements of the Companies Ordinance, 1984 or the requirements of the said directives take precedence.

2.2 Basis of measurement

These accounts have been prepared under the historical cost convention except for certain financial instruments at fair value and certain items of property, plant and equipment that are stated at revalued amounts. In these financial statements, except for the amounts reflected in the cash flow statement, all transactions have been accounted for on accrual basis.

2.3 Judgment, estimates and assumptions

The preparation of financial statements in conformity with IASs as applicable in Pakistan requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and related assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances the results of which form the basis of making the judgments about the carrying values of assets and liabilities that are not readily apparent from other sources, actual results may differ from the estimates. The estimates and related assumptions are reviewed on an ongoing basis. Accounting estimates are revised in the period in which such revisions are made and in any future periods affected.

Significant management estimates in these financial statements relate to the useful life of property, plant and equipment, provisions for doubtful receivables, slow moving inventory and taxation. However, the management believes that the change in outcome of estimates would not have a material effect on the amounts disclosed in the financial statements.

Judgment made by management in the application of approved standards as applicable in Pakistan that have significant effect on the financial statements and estimates with a risk of material adjustment in subsequent year are as follows;

2.3.1 Depreciation method, rates and useful lives of property, plant and equipment

The management of the Company reassesses useful lives, depreciation method and rates for each item of property, plant and equipment annually by considering expected pattern of economic benefits that the Company expects to derive from that item.

2.3.2 Recoverable amount of assets/ cash generating units

The management of the Company reviews carrying amounts of its assets and cash generating units for possible impairment and makes formal estimates of recoverable amount if there is any such indication.

2.3.3 Fair value of financial instruments having no active market

Fair value of financial instruments having no active market is determined using discounted cash flow analysis after incorporating all factors that market participants would consider in setting a price and using inputs that reasonably represent market expectations and measures of the risk-return factors inherent in the financial instrument.

2.3.4 Taxation

The Company takes into account income tax law and decisions taken by appellate authorities. Instances where the Company's view differs from the view taken by tax department at the assessment stage and where the Company considers that its view of items of material nature is in accordance with law, the amounts are shown as contingent liabilities.

2.3.5 Provisions

Provisions are based on best estimate of the expenditure required to settle the present obligation at the reporting date, that is, the amount that the Company would rationally pay to settle the obligation at the reporting date or to transfer it to a third party.

2.3.6 Revaluation of property, plant and equipment

Revaluation of property, plant and equipment is carried out by independent professional valuers. Revalued amounts of non-depreciable items are determined by reference to local market values and that of depreciable items are determined by reference to present depreciated replacement values.

2.4 Functional currency

Items included in the financial statements are prepared using the currency of the primary economic environment in which the company operates i.e. Pak Rupees which is the Company's functional currency.

3 SIGNIFICANT ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently to all periods presented in the financial statements.

3.1 Ordinary share capital

Ordinary share capital is recognized as equity. Incremental costs directly attributable to the issue of ordinary shares are recognized as deduction from equity.

3.2 Surplus / deficit arising on revaluation of property, plant and equipment

Surplus arising on revaluation of items of property, plant and equipment is credited directly to the equity after reversing deficit relating to the same item previously recognized in profit and loss, if any. Deficit arising on revaluation is recognized in profit and loss after reversing the surplus relating to the same item previously recognized in equity, if any. An amount equal to incremental depreciation, being the difference between the depreciation based on revalued amounts and that based on the original cost, net of deferred tax, if any, is transferred from surplus on revaluation of property, plant and equipment to accumulated profit and loss every year.

3.3 Employee benefits

Defined benefit plan

The Company operates an unfunded gratuity scheme covering its permanent employees. Employees are eligible for benefits under this scheme after the completion of a prescribed qualifying period of service. The latest actuarial valuation was carried out as at June 30, 2012. Charge for the current year is based on estimates provided by the actuary as at June 30, 2012. The following significant assumptions were used in the latest actuarial valuation:

| | 2012 | 2011 |
|---|------------------------------|---------|
| Discount rate | 13% | 14% |
| Expected rate of salary increase in future years | 12% | 13% |
| Average expected remaining working life time of employees | 4 years | 4 years |
| Actuarial valuation method | Projected unit credit method | |

3.4 Borrowings

These are recognized initially at fair value less attributable transaction cost. Subsequent to initial recognizion, these are stated at amortized cost with any difference between cost and redemption value being recognized in the profit and loss over the period of the borrowings on an effective interest basis.

3.5 Provisions

A provision is recognized in the balance sheet when the Company has a legal or constructive obligation as a result of a past event and it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate of the amount can be made.

3.6 Taxation

Current

The charge for taxation for the year is based on minimum tax at the current rates of taxation after taking into account tax rebates and credits available, if any.

Deferred

Deferred tax is accounted for using the balance sheet liability method in respect of all temporary differences arising from differences between the carrying amount of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of the taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences and deferred tax assets, as required by IAS - 12 (Income Taxes), are recognized to the extent of potential available taxable profit against which temporary differences, unused tax losses and tax credits can be utilized.

3.7 Trade and other payables

Liabilities for trade and other amounts payable are carried at cost which is the fair value of the consideration to be paid in future for goods and services received, whether or not billed to the Company.

3.8 Trade and other receivables

Trade and other receivables are recognized initially at fair value and subsequently measured at amortized cost less impairment loss, if any.

3.9 Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation except freehold land that is stated at revalued amount. Buildings, plant and machinery, grid station and generators are stated at revalued amounts less accumulated depreciation. Cost of property, plant and equipment consists of historical cost, revalued amount and other directly attributable costs incurred to bring the assets to their working condition.

The management reviews the market value of revalued assets at each balance sheet date to ascertain whether the fair value of revalued assets have differed materially from the carrying value of such assets, thus necessitating further revaluation.

Depreciation on property, plant and equipment has been provided for using the reducing balance method at the rates specified in Note 14. Depreciation on additions is charged from the month in which the asset was available for use up to the month in which the asset was disposed off.

Maintenance and normal repairs are charged to income as and when incurred. Major renewals and improvements are capitalized. Gain or loss on disposal of property, plant and equipment, if any, is shown in the profit and loss account.

3.10 Capital work in progress

Capital work in progress in stated at cost less identified impairment loss, if any, and includes the expenditures on material, labour and appropriate overheads directly relating to the construction, erection or installation of an item of property, plant and equipment. These costs are transferred to property, plant and equipment as and when related items become available for intended use.

3.11 Impairment

Carrying amounts of the Company's assets are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated and impairment loss is recognized in the profit and loss account.

3.12 Stores, spares and loose tools

Usable stores and spares are valued principally at moving average cost, while items considered obsolete are carried at nil value. Items in transit are valued at cost comprising invoice value plus incidental charges paid thereon.

Provision for obsolete and slow moving stores and spares is based on management's estimate.

3.13 Stock in trade

These are valued at lower of cost or net realizable value except waste which is valued at net realizable value determined at average selling price.

cost is determined by following basis:

Raw materials - At weighted average cost.

Work in process - At annual average material cost plus appropriate manufacturing costs.

Finished goods - At average manufacturing cost.

Wastes - At net realizable value.

Net realizable value signifies the estimated selling price at which goods in stock could be currently sold less any further costs that would be incurred to complete the sale.

Costs in relation to work in process and finished goods represent annual average costs which consist of prime costs and appropriate manufacturing overheads.

Items in transit are stated at cost comprising invoice value and other incidental charges paid thereon.

3.14 Cash and cash equivalents

Cash and cash equivalents are carried in the balance sheet at cost. For the purpose of cash flow statement, cash and cash equivalents comprise cash in hand and cash with banks in current accounts.

3.15 Financial instruments

Financial instruments are recognized when the Company becomes a party to the contractual provisions of the instrument. It ceases to recognize financial assets when it loses control of contractual rights and in case of financial liability when the liability is extinguished. Any gain or loss on subsequent remeasurement / derecognition is charged to income.

A financial asset and financial liability is offset and the net amount is reported in the balance sheet if the Company has a legally enforceable right to set-off the recognized amounts and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

3.16 Foreign currency translation

Assets and liabilities in foreign currency are stated in Pak Rupees at the rates of exchange ruling on the balance sheet date or rate of exchange fixed under contractual agreements. Transactions in foreign currency are translated at the exchange rate prevailing at the date of transaction. All exchange differences are included in the profit and loss account.

3.17 Related party transactions

Transactions with related parties are based on the transfer pricing policy that all transactions between the Company and the related party or between two or more segments of the Company are at arm's length prices using the comparable uncontrolled price method except in circumstances where it is in the interest of the Company not to do so.

3.18 Revenue recognition

- Local sales are recorded on dispatch of goods to customers.
- Export sales are recorded at the time of receipt of bill of lading.

3.19 Borrowing costs

Borrowing costs are charged to income as and when incurred except to the extent of costs directly attributable to the acquisition, construction or production of qualifying assets that are capitalized as part of the cost of asset.

3.20 Dividends

Dividend is recognized as a liability in the period in which it is declared.

3.21 Earning per share (EPS)

Basic EPS is calculated by dividing the profit and loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period.

Diluted EPS is calculated by adjusting basic EPS by the weighted average number of ordinary shares that would be issued on conversion of all dilutive potential ordinary shares into ordinary shares and post-tax effect of changes in profit and loss attributable to ordinary shareholders of the Company that would result from conversion of all dilutive potential ordinary shares into ordinary shares.

3.22 Changes in accounting policies and disclosures

3.22.1 Standards, interpretations and amendments to published approved accounting standards that are not yet effective

The following revised standards, amendments and interpretations with respect to approved accounting standards as applicable in Pakistan would be effective from the dates mentioned below against the respective standards or interpretations:

| Standards or Interpretation | Effective date Accounting period beginning on or after |
|--|--|
| Amendments enhancing disclosures about offsetting of financial assets and financial liabilities | January 01, 2013 |
| IAS-19 -Employees Benefits- Amended Standard resulting from the Post-Employment Benefits and Termination Benefits projects | January 01, 2013 |
| IAS-32 -Offsetting Financial Assets and Financial Liabilities - (Amendment) | January 01, 2014 |
| IFRIC 20 -Stripping Costs in the Production Phase of a Surface Mine | January 01, 2013 |

The Company expects that the adoption of the above revisions, amendments and interpretations of the standards will not materially affect the Company's financial statements in the period of initial application.

In addition to the above, the following new standards have been issued by IASB which are yet to be notified by the SECP for the purpose of applicability in Pakistan.

| Standards or Interpretation | IASB Effective date | |
|---|--------------------------------|--|
| | Annual periods beginning on or | |
| | after | |
| IFRS 9 - Financial Instruments | January 01, 2013 | |

| IFRS 12 - Disclosure of Interests in Other Entities | January 01, 2013 | |
| IFRS 13 - Fair Value Measurement | January 01, 2013 | |

3.22.2 Standards, interpretations and amendments to published approved accounting standards effective in 2011-2012

New and amended standards and interpretations

The company has adopted the following new and amended IFRS and IFRIC interpretations which became effective during the year:

IFRS 7 -Financial Instruments: Disclosures (Amendment)

IAS 24 -Related Party Disclosures (Revised)

IFRIC 14 -Prepayments of a Minimum Funding Requirement

In May 2010, International Accounting Standards Board (IASB) issued amendments to various standards primarily with a view to removing inconsistencies and clarifying wording. These improvements are listed below:

IFRS 7 -Financial Instruments: Disclosures - Clarification of disclosures

IAS 1 -Presentation of Financial Statements - Clarification of statement of changes in equity

IAS 34 -Interim Financial Reporting - Significant events and transactions

IFRIC 13 -Customer Loyalty Programmes - Fair value of award credits

The adoption of the above standards, amendments / improvements and interpretations didn't have any significant effect on the financial statements.

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable willing parties in an arms length transaction.

The carrying values of all financial assets and liabilities reflected in the financial statements approximate their fair values.

36 FINANCIAL INSTRUMENTS

Financial risk factors

The Company's activities expose it to a variety of financial risks: market risk (including currency risk, interest rate risk and other price risk), credit risk and liquidity risk. The Company's overall risk management program focuses on having cost effective funding as well as to manage financial risk to minimize earnings volatility and provide maximum return to shareholders.

Risk management is carried out by the Company's finance department under policies approved by the Board of Directors.

- (a) Market risk
- (i) Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

The company is exposed to currency risk on the import of raw material and stores and spares and export of goods mainly denominated in US dollars and on foreign currency debtors and loans. The company's exposure to foreign currency risk for US dollars is as follows:

| | 2012 | 2011 |
|--|---------------|---------------|
| | Rupe | es |
| Foreign trade debts | 233,971,804 | 198,495,924 |
| Foreign currency short term borrowings | | |
| - Habib Bank Limited | (220,789,589) | (228,715,148) |
| - United Bank Limited | (286,815,741) | (219,140,442) |
| Gross balance sheet exposure | (273,633,527) | (249,359,666) |
| Outstanding letter of credit | (149,009,423) | (65,995,000) |
| Net exposure | (422,642,950) | (315,354,666) |

The following significant exchange rates have been applied at the reporting dates:

| USD to PKR | 94.20 | 85.60 |
|------------|-------|-------|
| | | |

The Company manages its currency risk by close monitoring of currency markets. However, the Company does not hedge its currency risk exposure.

At June 30, 2012, if the Pakistan Rupee had weakened / strengthened by 10% against the US Dollar with all other variables held constant, post-tax loss / profit for the year have been higher / lower by Rs. 28,188,973 (2011: 24,935,967) mainly as a result of foreign exchange losses / gains on translation of foreign debts, foreign currency borrowings.

(ii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. As the Company has no significant interest-bearing assets, the Company's income and operating cash flows are substantially independent of changes in market interest rates.

At the reporting date, the interest rate profile of the company's significant interest bearing financial instruments was as follows:

(iii) Financial liabilities

| | 2012 | 2011 | 2012 | 2011 |
|---|----------------|-----------------|-----------------|---------------|
| Long term financing | Percentage | | Rupe | ees |
| - Fixed rate instruments | 7.00 | 7.00 | 71,190,648 | 117,651,876 |
| - Variable rate instruments | 13.20 to 16.03 | 14.73 to 16.28 | 252,583,999 | 129,742,290 |
| Short term borrowings | 03.87 to 15.29 | 04.39 to 14.17 | 765,262,914 | 871,618,145 |
| | | | 1,089,037,561 | 1,119,012,311 |
| Total yield / mark up rate risk sensitivity gap | | (1,089,037,561) | (1,119,012,311) | |

(iv) Fair value sensitivity analysis for fixed rate instruments:

The company does not account for any fixed rate financial assets and liabilities at fair value through profit and loss. Therefore, a change in interest rates at the reporting date would not affect profit and loss account.

(v) Cash flow sensitivity analysis for variable rate instruments:

A change of 1% in interest rates at the reporting date would have decreased / increased loss for the year by the amount shown below. This analysis assumes that all other variables, in particular foreign currency rates, remains constants. This analysis is prepared assuming the amount of liabilities outstanding at balance sheet date were outstanding for the whole year.

46

| | Effect on Profit an | Effect on Profit and Loss 1% rate | |
|---|---------------------|-----------------------------------|--|
| | Increase | Decrease | |
| As at June 30, 2012 | | | |
| Cash flow sensitivity - variable rate financial liabilities | 10,253,578 | (10,253,578) | |
| | | | |
| As at June 30, 2011 | | | |
| Cash flow sensitivity - variable rate financial liabilities | 20,027,209 | (20,027,209) | |

(vi) Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from currency risk or interest rate risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market. The Company is not exposed to equity securities price risk as there is no investment in listed securities.

(b) Credit risk

Credit risk represents the risk of financial loss being caused if counter parties fail to discharge an obligation.

Credit risk arises from deposits with banks, trade debts, loans and advances, deposits and other receivables. The company seeks to minimize the credit risk exposure through having exposures only to customers considered credit worthy and obtaining securities where applicable. Where considered necessary, advance payments are obtained from certain parties. The maximum exposure to credit risk is equal to the carrying amount of financial assets. Out of the total financial assets of Rs. 301,163,187 (2011 : Rs. 270,929,345), the financial assets exposed to credit risk amount to Rs. 286,103,097 (2011 : Rs. 268,220,052).

The maximum exposure to credit risk for trade debts at the balance sheet date by geographic region is as follows:

| | 2012 | 2011 |
|---------------|-------------|-------------|
| | Rupee | es |
| Local debts | 19,394,199 | 44,965,432 |
| Foreign debts | 233,971,804 | 198,495,924 |
| | 253,366,003 | 243,461,356 |

The majority of foreign debtors of the company are situated in Asia, America, and Europe.

The maximum exposure to credit risk for loans and receivables at the reporting date by type of goods are:

| | 2012 | 2011 |
|---|-------------|-------------|
| | Rupees | |
| Yarn | 153,182,298 | 147,194,058 |
| Fabric | 97,720,734 | 93,900,610 |
| Others | 2,462,971 | 2,366,688 |
| | 253,366,003 | 243,461,356 |
| The aging of loans and receivables at the reporting date was: | | |
| Past due 0-6 months | 249,487,163 | 234,468,269 |
| Past due 6-12 months | 3,878,840 | 8,993,086 |
| | 253,366,003 | 243,461,356 |
| | | |

The Company monitors the credit quality of its financial assets with reference to historical performance of such assets and available external credit ratings. The carrying values of financial assets which have not impaired are as under:

| Long term deposits | 12,952,014 | 12,952,014 |
|------------------------|-------------|-------------|
| Trade debts | 253,366,003 | 243,461,356 |

| Cash and bank balances | 15,060,091 | 5,273,265 |
| | 309,635,357 | 266,887,677 |

The credit quality of receivables can be assessed with reference to their historical performance with no or some defaults in recent history, however, no losses. The credit quality of Company's bank balances can be assessed with reference to external credit ratings as follows:

| Bank | Rating Agency | Short Term Borrowings | Long Term Loans |
|---------------------|---------------|--------------------------|--------------------|
| United Bank Limited | JCR-VIS | A1+ | AA+ |
| Habib Bank Limited | JCR-VIS | A1+ | AA+ |

(c) Liquidity risk

Liquidity risk represents the risk that the Company will encounter difficulties in meeting obligations associated with financial liabilities. Prudent liquidity risk management implies maintaining sufficient cash and marketable securities, the availability of funding through an adequate amount of committed credit facilities. Due to growing nature of the businesses the Company maintains flexibility in funding by maintaining committed credit lines available.

The table shows analyses how management monitors net liquidity based on details of the remaining contractual maturities of financial assets and liabilities. The amounts disclosed in the table are the contractual undiscounted cash flows.
